Objectives

The objective of the OTHM Level 4 Diploma in Health and Social Care Management qualification is to equip learners with the underpinning knowledge, understanding and skills required for a career in the health and social care sector at a managerial level. The programme enables learners to demonstrate their skills by producing evidence from their work or training activities. Learners will acquire care management skills in the Health and Social Care sector.

Methods of Teaching

- Theoretical Lectures
- Conferences with brands and professionals
- Professional situation
- Tutorials
- Case Study

Progression & Careers

- MSc top up in Health and Social Care Management
- Healthcare Department Manager
- Healthcare Finance Manager
- Healthcare Administrator
- Physician Practice Manager
- Quality and Improvement Manager

Assessment & Verification

All units within this qualification are internally assessed by Estya and externally verified by OTHM. The qualifications are criterion referenced, based on the achievement of all the specified learning outcomes.

To achieve a 'pass' for a unit, learners must provide evidence to demonstrate that they have fulfilled all the learning outcomes and meet the standards specified by all assessment criteria. Judgement that the learners have successfully fulfilled the assessment criteria is made by the Assessor.

The Assessor should provide an audit trail showing how the judgement of the learners' overall achievement has been arrived at.

Educational Team

Faculty composed of teachers and professionals which form an essential link between the requirements of companies and the educational objectives imposed by this training.

Hybrid Learning

At ESTYA , we are opting for the blended learning approach. Students learn at home via electronic, online media, through paper 'packs' of resources as well as traditional face-to-face teaching to ensure students are given equal opportunities to access the curriculum, whether in University or learning at home. Home learning builds on and complements what is done at the University. The blended learning approach considers how to incorporate:

Synchronous Learning

Synchronous learning is teaching and learning that happens where the teacher is present at the same time as the students, meaning that there is real-time interaction between them.

- Resources and activities delivered online, e.g., through Microsoft Teams.
- Recorded lessons/video instruction/podcasts.
- Flipped learning – students engage with material before discussions in class.

Asynchronous Learning

Asynchronous learning is learning that does not necessarily happen at the same time for the teacher and the students. There is no real-time interaction; the learning resources are created and made available for students to use later.

Admission Process

The Office of Admissions holistically screens applicants files for the following : CV, cover letter, diplomas obtained, transcripts of the last two years, recommendation letter from a previous teacher, valid English Test (IELTS and equivalent requirements are optional), working certificates for mature learners)
